PROFILE

During my studies, I have focused on web development, mobile app development, and exploring artificial intelligence. Working on various projects has allowed me to gain practical experience and develop problem-solving skills. In my free time, I love exploring new technologies, participating in online courses, and turning my ideas into real projects. My goals are to enhance my knowledge and skills and eventually work on developing innovative software solutions that will have a global impact.

In addition to technical skills, I have also developed teamwork and communication abilities through participation in various student organizations and projects.

My goal is to continue learning and improving in the field of software engineering and to contribute to the community by developing innovative solutions that will enhance the quality of life for people worldwide. I believe that continuous learning is crucial for success in this dynamic industry, and I am always looking for new opportunities for professional and personal growth.
